

Employee Handbook — Sample Company

Document ID: EMP-HB-2026-001

Version: 2.1 | Effective Date: January 1, 2026

1. Introduction

This handbook describes selected workplace policies and procedures for Sample Company employees. It is designed as a training document for the PDF Question Answering System and contains structured information that can be retrieved by page, section, and topic.

Sample Company values professional conduct, continuous learning, customer focus, collaboration, security, and responsible use of company resources. Employees are expected to follow applicable company policies and ask their manager or Human Resources when a policy is unclear.

2. Leave and Time-Off Policy

Full-time employees are eligible for 18 days of annual paid leave per calendar year. Employees who join during the year receive a prorated entitlement according to company policy.

Leave requests should normally be submitted through the HR portal at least three working days before the requested start date. Emergency leave should be communicated to the employee's manager as soon as reasonably possible.

Unused annual leave may be carried forward subject to the company's annual carry-forward limit. Employees should consult Human Resources for the applicable limit and exceptions.

3. Remote Work

Eligible employees may work remotely according to their team's approved hybrid-work arrangement. Employees working remotely are responsible for maintaining a reliable internet connection, protecting company information, and remaining available during agreed working hours.

4. Information Security

Company systems and information must be protected from unauthorized access. Employees must use strong passwords, enable multi-factor authentication where required, and avoid sharing credentials.

Confidential documents should only be stored in approved company systems. Employees should not upload confidential company information to personal cloud storage, unapproved applications, or public AI tools.

Security incidents, suspected phishing messages, lost devices, and accidental disclosure of confidential information must be reported promptly to the IT or security team.

5. Employee Support Contacts

Department	Purpose	Contact Method
Human Resources	Leave, benefits, workplace policies	HR Portal
IT Support	Devices, accounts, software access	IT Helpdesk
Information Security	Security incidents and phishing	Security Helpdesk

6. Performance and Learning

Employees are encouraged to maintain an individual learning plan aligned with their role. Managers may recommend technical training, mentoring, certifications, or project-based learning.

Performance discussions may consider delivery quality, collaboration, communication, customer impact, ownership, and continuous improvement. Employees should maintain clear records of significant project outcomes and contributions.

7. Quick Reference

Question	Answer
Annual paid leave	18 days for eligible full-time employees
Leave request timing	Normally at least 3 working days in advance
Remote work	Available to eligible employees under approved arrangements
Security incidents	Report promptly to IT or Information Security

End of sample document. This document is intentionally designed for RAG training and will be reused throughout Project 1 for ingestion, chunking, embeddings, retrieval, prompting, and citation exercises.
